

The Red Cross has set up a Corona Help Network

The Corona situation is evolving day by day, hour by hour. There is a growing need for help for all those who are either sick, quarantined, or particularly susceptible to being infected with Coronavirus. That's why we have opened the Help Network!

The Red Cross Corona Help Network is aimed at:

- Elderly persons who are at high risk of being infected.
- Persons who are particularly exposed, for example due to illness (eg. cardiovascular disease, lung disease, reduced immune system and cancer) and have therefore chosen to isolate themselves.
- People who are suspected of being infected and therefore confined to their home.
- People who are sick with Coronavirus and therefore confined to their home.

Do you need help?

The help network can, for example, assist with shopping, walking dogs, collecting packages and medicine or other practical tasks. Note that The Red Cross help does NOT include childcare.

Call 35 29 96 60

Or fill out the form on www.rodekors.dk/corona

Vejlesøparken needs local volunteer helpers

The Red Cross can only provide practical assistance to needy residents in Vejlesøparken if we have a corps of local helpers. Therefore, if you are healthy and would like to help your neighbor in need, sign up with the Red Cross via the form on the Red Cross website: www.rodekors.dk/corona or call 35 29 96 60.

Sincerely,

The Building Manager

NB: Of course, there are many alternatives: Private arrangements, agreements with neighbors.
